

FOR IMMEDIATE RELEASE

## The Option Genius Option Trading Advisory Is Up 10.29% for the First Two Months of 2011

Houston, TX, March 24, 2011 – While most financial advisors say that 10% yearly returns are a great achievement, at OptionGenius.com that is not good enough. So far in 2011, the service is already up over 10%. By focusing on trades that sell equity options which have a high probability of success, the service has averaged over 6% returns per month since 2006.

Founded by Allan Sama, OptionGenius.com lets anyone see Sama's actual option trades and adjustments through real-time updates. Members of the service can follow along and watch or trade the live trades themselves. They can even have their brokers autotrade for them: this is where the broker places OptionGenius trades for them.

At the heart of OptionGenius.com is the story of a man who initially lost a small fortune in the markets, learned and did well in a new style of trading, and decided to help others get ahead.

When Sama began trading stocks, he did everything the experts advised. Within a year, he had reduced his savings from \$83,000 to \$34,000. Discouraged, Sama decided he would not make another trade until he figured out what he had been doing wrong and what he had done right. He noticed trading options was the only technique that had consistently earned him money.

Sama threw himself into learning all he could about options trading. Countless books and seminars and hundreds of hours later, he was an expert with his own trading plan. He back-tested his plan back to the mid-'90s, and it consistently made money. Using his new technique, he began trading again--and began making serious profits. He decided to let other people see exactly what he was doing as he was doing it, and OptionGenius.com was born.

OptionGenius.com uses trades that have over a 75% probability of success to generate double-digit monthly returns with limited risk. Sama carefully selects each trade and makes adjustments when needed. And he uses his own money to make the trades right along with his members.

Sama had altruistic reasons for creating OptionGenius.com. His mission: To eradicate global poverty within the next 100 years. By helping others attain financial independence, Sama feels he is doing his part to reach that goal. In return, he expects OptionGenius.com members to pay it forward. In fact, anyone who donates \$100 to Sama's favorite charity, will receive 30 minutes of phone time with Sama.
